### ***Educational Support Services for Deaf & Hard of Hearing Students attending College or University***

Students who are Deaf or Hard of Hearing have various individual needs. However, these students all have communication needs that affect their ability to understand and participate in lectures, tutorials, seminars, and interactions with potential employers.

The provision of Educational Support Services is a means of alleviating a number of the barriers that Deaf or Hard of Hearing students may experience at the post-secondary level, thereby increasing their access to post-secondary education and employability.

NCCD provides the following Educational Support Services:

- ◆ *Vocational Counseling Services (both pre-entrance and follow-up)*
- ◆ *Assistance in gaining post-secondary educational/transitional support*
- ◆ *Orientation and in-servicing of faculty and/or instructional personnel, as well as orientation and in-servicing to students*
- ◆ *Personalized Assistive Listening Devices and Accessories*
- ◆ *Maintenance of Assistive Listening Devices*
- ◆ *Tutorial Services (arranging / monitoring)*
- ◆ *Note-taking Services and/or alternative arrangements for note-taking (arranging / monitoring)*
