

Where to Purchase Hearing Aids and Hearing Assistive Technology

Updated November 2019

Your Hearing Health Care Professionals Include:

Audiologists:

Trained in the prevention, identification and treatment of reduced hearing and its related disorders including Tinnitus and the balance system. This includes prescribing and fitting hearing aid technology and referral to an ENT doctor, as well as other medical professionals deemed necessary.

Qualifications:

- Have a Master's degree specializing in Audiology from a Canadian University or a Doctorate from an accredited US University.
- Are licensed to provide professional services and dispense hearing aids in the Province of Newfoundland and Labrador under the Health Professions Act.

Hearing Aid Practitioner (HAP):

Trained to evaluate hearing and prescribe and fit hearing aid technology.

Qualifications:

- Have completed a minimum two-year course of study and apprenticeship in hearing evaluation and hearing aid dispensing and must pass a practical exam.
- Are licensed through the Province of Newfoundland and Labrador under the Hearing Aid Practitioners Board of Newfoundland and Labrador.
